

REMARKS

In response to the Official Action mailed on June 13, 2005, containing a restriction requirement, the Applicants elect the invention described by claims 1 - 6, drawn to a lid, for examination in the present application. Non-elected claim 7 has been rewritten so as to depend from claim 1, and non-elected claim 10 has been cancelled as unnecessary. In addition, the claims have been amended to correct informalities, and new claims 11 and 12 have been added to describe additional features of the present invention. These amendments are for the purpose of improving the form of the claims and are unrelated to issues of

patentability.

Respectfully submitted,
